REQUESTS FOR INFORMATION

SDCCD RFQ for Signage Design Services

JUNE 26, 2009

1. Question: *If a signage designer/fabricator is included on the winning proposal team, would that signage designer/fabricator still be eligible to bid on any future sign fabrication RFP or contract with the District?*

Response: *No. If a firm is a part of the design process they cannot bid on the project.*

2. Question: *Please elaborate, if you can, on your meaning of the term "Signage Guidelines."*

Response: *Guidelines for future construction projects and building signage.*

3. Question: *How much emphasis might there be, if any, on the design of original graphics, such as logos for each campus or individual facilities? Or would the winning team more simply specify design standards and guidelines as to fonts, layouts, colors, materials, structure, dimensions, placements and other requirements of a cohesive signage program?*

Response: *Unknown, the winning team will work with each campus and if appropriate original graphics maybe included in the scope of work.*
